RE: 2008 Pavement Management – Neighborhood Meeting

Dear Resident:

This letter is to invite you to a Neighborhood Meeting on October 29, 2007 at St. Luke's Church (7000 Hinton Avenue S., Cottage Grove) at 7:00 p.m. to learn more about the planned Pavement Management activities that will be taking place in your neighborhood in 2008. As with all street repair projects of this nature assessments will be levied on benefiting properties.

As stated in the previous letter mailed in August 2007, evaluation of the streets and utilities has been underway for your neighborhood. That evaluation has brought about changes in the streets that will see improvements next year from what was proposed earlier. Please see the enclosed map that outlines the streets that are now proposed for improvements. The changes are based upon a number of factors: existing condition of a street, budget constraints, and necessary utility improvements (sanitary sewer, water main, storm sewer).

At the Neighborhood Meeting a presentation will be made on the scope of the work proposed to take place, what to expect during construction, an outline of the assessment process and project schedule. Following the formal presentation, staff will be on hand to answer specific questions you may have regarding the project.

The City is looking forward to working with you to provide an improved infrastructure and an overall enhancement to the community. If you have any questions regarding the proposed project please feel free to contact me at 651-458-2808 or visit the City's website at www.cottage-grove.org (follow the link to Project Updates/2008 Pavement Management).

Sincerely,

Jennifer Levitt, P.E.
City Engineer
